

The efforts of Muhammad sharef ul Allah in tafseer and its science

Abdullah: *¹

Prof Dr fazlullah: *²

It is known that the scholars of sub continent have devoted their lives to the service of Islamic sciences, especially in the field of tafseer, and have written huge work in Arabic and the languages of subcontinent due to importance and high status of tafseer among the Islamic sciences ,There is a long series of scholars who have sacrificed every gal in this area.

Sheikh Muhammed Sharif ul Allah (1349-1431) was one of them chosen by God to serve his holy book, He has great efforts in the field of tafseer and its science, he was not only an author but was successful preacher and a sincere honest teacher, spend his life in the service of holy book.

He has thousands of students and many books in this area, which are very important such as **تبيان الفرقان في تفسير القرآن , التفسير البديع في معرفة كلام ربنا السميع**
التفسير الكوثري , تفسير القرآن في حل مهمات الفرقان , مقدمة قرآن

He has taken certain approach to clarify the significance of the words and eloquence the word, and mentions Israel liyyat **الإسرائيليات** without commenting on them, elaborate the Reason of Revelation of surah, and discussed the linked between surah and verses.

These things indicate his passion for the holy books of God, and give his educational capabilities and depth, so this research highlight his efforts.
